

I oppose the weakening of Indiana State law regarding telephone calls. If our homes are allowed to be invaded by unwanted telephone soliciation, where do we go for privacy? Advertise your business in the newspaper, yellow pages, billboards, or mail, but please do not inturupt my private time at home by a phone call. If you really want my business, you will respect my rights. I am more inclined to give my business to companies who honor me by respecting my private life.
